A Resolution Urging Mayor Manny Diaz and the Miami City Commission to Continue to Support the New Marlins Stadium Project

WHEREAS, Miami has always been and continues to be one of the top tourist destinations in the country; and

WHEREAS, the residents of Miami take great pride in their community and what it offers not only to residents but also to the tourists visiting the area; and

WHEREAS, baseball is America's favorite past time and fosters travel by fans across the country to watch games and visit ballparks and infuses much money into the local economy; and

WHEREAS, the current stadium utilized by the Marlins was not built primarily as a baseball stadium and does not draw the crowds that other stadiums across the country draw; and

WHEREAS, in this down economic cycle moving forward with a multi-million dollar project like the new Marlins Stadium will create thousands of local jobs and infuse hundreds of millions of dollars into the local economy; and

WHEREAS, the number of general contractors, specialty contractors and suppliers needed to produce a stadium of this magnitude will create a local economic stimulus package that will directly benefit the residents and families of Miami and the surrounding areas; and

WHEREAS, at the completion of this project Miami will have one of the greatest stadiums in the country that will draw thousands of people to the games who will pay thousands of dollars to enjoy the Marlins, the stadium and the surrounding areas;

NOW THEREFORE,

Be it resolved by the Board of Directors of Associated Builders and Contractors Florida East Coast Chapter:

That we are entirely supportive of the new Marlins Stadium project, what it can do not only for our members and their families, but for what it can do for the great City of Miami, its residents and this great state of Florida. We encourage Mayor Diaz and the Miami City Commissioners to move forward with this project in the most expeditious manner for the economy and for the residents you represent.
